BOOK I
THE KINDS OF CONIFERS

CHAPTER	PAGES
I. PREVIEW OF THE SYSTEMATIC TREATMENT	1-18
I. The Problem	2-17
Conifers, and their terminology	5
Forms subordinate to the species	8
The synonyms or duplicate names	10
The troublesome problem of nomenclature	15
Basis of the work	17
II. The Two Families	18
II. THE TAXADS, OR YEWS AND THEIR KINDRED	19-36
1. Taxus	5. Podocarpus
2. Dacrydium	6. Cephalotaxus
3. Phyllocladus	7. Torreya
4. Saxegothæa	
III. THE TRUE CONE-BEARERS.—PINES	37-77
1. Pinus	
IV. THE TRUE CONE-BEARERS.—FIRS AND SPRUCES	78-127
2. Abies	5. Picea
3. Keteleeria	6. Tsuga
4. Pseudotsuga	
V. THE TRUE CONE-BEARERS.—CEDARS, LARCHES, CYPRESSES, AND OTHERS	128-183
7. Cedrus	19. Agathis
8. Larix	20. Cupressus
9. Pseudolarix	21. Chamæcyparis
10. Taxodium	22. Thuja
11. Glyptostrobus	23. Thujopsis
12. Sequoia	24. Libocedrus
13. Cryptomeria	25. Callitris
14. Cunninghamia	26. Actinostrobus
15. Athrotaxis	27. Widdringtonia
16. Taiwania	28. Tetraclinis
17. Sciadopitys	29. Fitzroya
18. Araucaria	
VI. THE TRUE CONE-BEARERS.—JUNIPERS	184-200
30. Juniperus	

BOOK II

THE GROWING OF CONIFERS FOR ORNAMENT AND INTEREST

CHAPTER	PAGES
VII. CONIFERS IN THE LANDSCAPE	205-228
The background of the forest <i>R. S. Hosmer</i>	208
The Christmas-tree problem <i>R. S. Hosmer</i>	211
The natural setting of evergreens <i>O. C. Simonds</i>	217
Evergreens in the planted landscape <i>S. F. Hamblin</i>	219
VIII. CULTIVATION AND PROPAGATION OF CONIFERS	229-250
I. How Conifers are Grown	229-240
Fertilizers, manures, and mulches	232
The transplanting of conifers	236
The pruning of conifers	239
II. The Propagation of Conifers	240-250
Propagation by seed	241
Propagation by means of cuttings	244
Propagation by means of grafting	248
IX. EXPERIENCES WITH CONIFERS	251-337
Experiences in the Rochester parks	253
<i>John Dunbar and A. D. Slavin</i>	
Conifers in the Middle Country	297
Evergreen conifers in Canada <i>W. T. Macoun</i>	312
Experiences with certain conifers in southern Connecticut .	329
<i>G. P. Brett</i>	
X. INSECTS, DISEASES AND INJURIES OF CONIFERS IN NORTH AMERICA	338-381
I. Insects of Coniferous Evergreens	338-354
<i>C. R. Crosby and M. D. Leonard</i>	
II. Diseases and Injuries of Ornamental Conifers . <i>D. S. Welch</i>	354-381
1. Diseases and injuries peculiar to conifer seedlings and nursery stock	356
2. Diseases and injuries common to trees of all ages	360
3. Diseases and injuries of older trees	372
4. Fungicides	376
5. Tree surgery	379
